A rehearsal schedule will be posted online every two weeks so parents can pick up early on days when their children are finished early.

Join an exciting season of musical theatre. The theater program provides students with an opportunity to perform in elaborate full length musicals. Actors develop stage presence and skills in acting, singing, and dance. The process will include character development, improvisation, acting techniques, vocal work, movement and dance. There will be two performances at the end of the season. Children with no performing experience along with those who have prior training and experience are encouraged to participate!
